

ABOUT TIOGA

Tioga has that small, home town feeling with a rich history of agriculture and energy production. The largest, natural gas plant was erected in 1954.

By partnering with other civic groups The Tioga Area Economic Development Corporation focuses on fostering a vibrant businesses and family environment.

From the Lindahl Wind Farm to downtown Micro-Retail, Drone Camp for Kids, and Adult Unmanned Aerial Systems training we, city leaders, and educators focus on strong stable home and work opportunities. Tioga focuses on students and their potential.

We may be a small town, but we focus on big opportunities.

Tioga, Oil Capital of North Dakota!

DRONE CAMP FOR KIDS
As a part of Tioga's Strategic Economic Development plan, the EDC has incorporated activities for children and education to distinguish and establish Tioga in its transition from "Oil Capital of ND" to "Energy & Innovation Capital of ND." As we progress into the 21st century, it is Tioga's goal to diversify our local economy with energy production: oil, natural gas, wind; and now technology for our young people, as we prepare them for the new global economy!
