THEODORE ROOSEVELT NATIONAL PARK

MORE COLORFUL, LESS CROWDED, AND SIMPLY SPECTACULAR.

Theodore Roosevelt National Park is often recognized as one of the best places to visit in the Midwest. It's the location that inspired Roosevelt to become America's "Conservation President." Featuring 70,448 acres and 136 miles of hiking trails, it offers the uncrowded feel you want in a national park. Enjoy unspoiled nature where sustainable travel brings you to a conservation treasure.

VISIT ALL THREE UNITS

SOUTH UNIT

Theodore Roosevelt said he never would have been President if not for his experiences in North Dakota. Welcome to the area where he was inspired to become our Conservation President.

This unit is the largest and most visited. It features a 24-mile scenic drive with spectacular views of the Little Missouri River, including the popular Wind Canyon. Wildlife include bison, elk, prairie dogs and wild horses. Don't miss the Painted Canyon Visitor Center, seven miles east of the city of Medora on I-94, and Roosevelt's Maltese Cross Cabin by the park entrance.

ELKHORN RANCH UNIT

The cabin is gone from this site where Roosevelt ranched, but the foundation stones and uninterrupted scenery along the Little Missouri River remain.

NORTH UNIT

The north unit near Watford City features a must-drive, 14-mile scenic byway with a breathtaking panorama at Oxbow Overlook. Look for bison and bighorn sheep along the way. Stop to see cannonball concretions, giant cannonball-shaped rocks formed by wind and water — often perched on slowly eroding rock pedestals.

Don't miss out on this North Dakota gem. Theodore Roosevelt National Park is as unique as it is beautiful.

GATEWAY CITIES: WELCOME, PARK VISITORS!

At the south unit's entrance of Theodore Roosevelt National Park, the old west town of Medora is a popular family destination. Enjoy the Pitchfork Steak Fondue and the Medora Musical, a professional musical production and variety show performed throughout the summer in an outdoor Badlands setting. Find inviting hotels, restaurants and amenities in Medora and at other anchoring communities like Watford City near the north unit and Dickinson near the south unit. The local artisans and proprietors appreciate your support and are happy to have you.

WINTER

HELLOOO, SNOW!

If you still get excited when you wake up to newly fallen snow, then you're invited to discover a world of cool winter fun outside — and the warm welcome of restaurants, shops and more inside.

When our rivers and lakes freeze, it's time to go fishing — ice fishing, that is. Walleye, perch and northern pike don't hibernate, and our season doesn't close. Some of our most popular spots are Devils Lake, Icelandic State Park, Lake Metigoshe State Park, Lake Sakakawea and Lake Audubon.

Cross-country skiing and snowshoeing will awaken your senses in the crisp winter air. Trails are ready for all skill levels, with favorite spots at several state parks, national wildlife refuges, Knife River Indian Villages National Historic Site, along the Greenway at Lincoln Park in Grand Forks or at Riverwood Golf Course in Bismarck. North Dakota is one of the nation's best locations for birders. Our wetlands, grasslands, lakes, rivers and colorful Badlands offer incredible birding habitats. We have more than one million acres of U.S. Forest Service national grasslands and more national wildlife refuges than any other state.

Our location in the Central Flyway puts us in the middle of millions of migrating birds, along with birds that stay year-round. More than 370 species can be found on the North Dakota Birder's checklist.

WHERE TO LOOK

It's simple and fun to find your favorite (and new) species of birds in North Dakota. Look for birding drives and trails, wildlife refuges and nature areas found throughout the state. During spring migration, you could see up to 25 species of warblers just in the Turtle Mountains near Bottineau.

LEWIS AND CLARK

HELLO, EXPLORERS! BRING YOUR EXPEDITION.

Come and see where the Lewis and Clark expedition, also known as the Corps of Discovery, spent more time than any other place on their journey. This was an adventure that shaped the nation, and their winter camp location was chosen for its friendly, hospitable reputation. Follow the Lewis and Clark Trail today and enjoy that same hospitality.

Knife River Indian Villages National Historic Site, near Stanton

The explorers chose this area for their winter camp along the Missouri River. Here they saw grizzly bears, giant cottonwood trees and the Knife River Indian Villages with a population larger than St. Louis. Though it has changed, this is still the same mighty river that drains a watershed of more than a half-million square miles from ten states and two Canadian provinces.

THE LEGENDARY TRAIL

While here, the Corps of Discovery met Native American tribes including Mandan, Hidatsa and Arikara. Follow the trail to **ON-A-SLANT INDIAN VILLAGE** near Mandan where you can explore six reconstructed earth lodges. Then visit **KNIFE RIVER INDIAN VILLAGES NATIONAL HISTORIC SITE** near Stanton to learn more about the people living here when they arrived.

Visit the **LEWIS AND CLARK INTERPRETIVE CENTER** in Washburn to learn the story of the expedition and its time with the Mandan and Hidatsa tribes. See real artifacts from the expedition and exhibits of the region's First Farmers.

Missouri-Yellowstone Confluence Interpretive Center, near Williston

Fort Mandan State Historic Site, near Washburn

Fort Union Trading Post National Historic Site, near Williston

Near the interpretive center, see **FORT MANDAN STATE HISTORIC SITE**.

This is the reconstructed winter base where Lewis and Clark spent the winter of 1804-1805. Here, they met Sakakawea, the Native American woman who would become invaluable on their journey.

West of Williston, the **MISSOURI-YELLOWSTONE CONFLUENCE INTERPRETIVE CENTER** marks the confluence of these two mighty rivers, and highlights the fur trade era and the Corps of Discovery. See the same views the Lewis and Clark Expedition enjoyed and visit **FORT UNION TRADING POST NATIONAL HISTORIC SITE**.
